

progress of the work in order that the main room would be presentable.

Mr. Berry has kindly donated two very good shades for the new room and Mrs. Brennan has sent in a table.

Mrs. Hainwright assisted me voluntarily several times a week for about two months but since the middle of January has been out of town.

There are now 756 Registrations and the number increases daily. Due to a recent Reading Course in the graded schools I found it rather difficult for a few days to handle the increased number of borrowers. However the rush has somewhat subsided.

During the last two months there has been many calls for the book "David Copperfield" and as there was only a worn copy in the library - two notices for donations of the book were sent out in the Leader - but there was no response. I tried all the book stores in town, but could not find a copy. I asked Mrs. Brennan to get me a copy when she went to Simonton - which she did. It is a very good illustrated copy and the price was \$1.00 - This will come out of the March fine money.

Respectfully submitted

Made D. Johnson
Librarian
